

INTRODUCTION

The Crew Declarations facility is used for club racing, or events within a series where sailors may change crew race-to-race. Designed for Inshore and offshore events, up to Cat 3 Not intended for Cat 1 & 2 use.

- Details are **boat based** and only updateable by the boat skipper/contact.
- Collects crew detail (name emergency contact details, AS member number, and/or other info) on a race by race basis
- The skipper can add crew members to their boat for a race. This is done quickly and easily via a smart phone or any internet enabled device (see below).
- The skipper can come back at any time and tick/untick who is "On Board"
- Once a week (one minute after midnight Monday by default) the list of who is "OnBoard" each boat is logged and then the "OnBoard" tick box is automatically unticked ready for the next race in the series.
- This data is then accessible at any time to the club administration.

ACCESSING THE CREW DECLARATIONS SCREEN

If you make your entry using the "Multi Select" option, you will not be able to add/update your crew list at the same time. You will need to submit your entry and then return to add crew lists separately for each series that you enter.

After you have completed your entry, go back to the nominations link on the RSAYS website.

On the screen that opens, go to the section headed "CREW LISTS"

CREW LISTS

An up to date crew list detailing all onboard must be submitted before EACH race.

The simplest way to do this is through TES after you have made your initial entry by visiting <http://tymob.net.au/1289>

The list will then be stored and be available to be confirmed/updated through a smart phone or tablet on the day of the race.
